Demountable System for Straight-Trucks

Load One Body

Deliver with Another

Swap in Minutes

Maximize Efficiency

- Workers Don't Wait for Truck to Return to Load
- Drivers Don't Wait While Truck is Being Loaded
- Eliminate Overtime and Second Shifts - Load During Regular Working Hours
- Trucks Arrive Earlier at First Delivery
- Make More Deliveries Per Shift

Improve Operations

- Fewer Trucks - Less Labor Required
- Utilize Different Body Styles on the Same Truck
- More Time to Plan and Load
- Free-Up Space on Loading Dock
- No Double Handling - Less Product Damage - Load Directly Into Freestanding Truck Bodies

• America's Swap Body •

Warehouse on Wheels System

Distribution Center

Pre-loaded demountable bodies are line-hauled to a transfer area near the remote market

Transfer Area

Bodies are demounted from the semi-trailer and mounted by straight-trucks

Remote Market

Straight-trucks make deliveries

Empty bodies from previous rounds are left at the transfer area and back-hauled to the distribution center for reloading

Access Remote Markets

- Cost-Effective Alternative to Regional Warehouses and Cross Docks
- Lowers Payroll and Operating Expenses
- More Control Over Inventory
- Adds Scheduling Flexibility
- Streamlines Delivery in Local Market

Consolidate Regional Warehouses

- Reduce Brick and Mortar Expenses
- Eliminate Redundant Functions
- Easier to Manage - All Under One Roof
- Less Inventory Required
- Decrease Product Damage
- Improve Service at the Local Level

- We work with your truck dealer, body builder & leasing company
- Installation & service centers throughout North America
- For new & existing vehicles
